

2026 Southern Invitational Steer Show Informational

Nov. 6th – 7th | Jefferson, GA

Steer Show Divisions

The 2026 Southern Invitational Steer Show will feature two steer show divisions:

1. Prospect Steer Show

- Prospect steers must not exceed 975 pounds.
- Classes within the Prospect Steer Show will be broken up by weight.
- Exhibitors should have an approximate weight for their steer prior to the show to help
- determine the appropriate division and class.

2. Progress Steer Show

- Progress steers must exceed 975 pounds.
- Classes within the Progress Steer Show will also be broken up by weight.
- Exhibitors should have an approximate weight for their steer prior to the show to help
- determine the appropriate division and class.

Division Declaration & Check-In

We **strongly recommend that exhibitors declare an approximate division prior to the show** based on the estimated weight of their steer.

The division declaration will be **confirmed during show check-in**.

Exhibitors should make every effort to have an accurate estimated weight before arriving at the show so that cattle can be placed in the appropriate division.

Need Help Determining Your Division?

If you are unable to weigh your cattle or determine an approximate weight to decide which division your steer should be entered in, please contact:

Cameron Watts
706-362-0739

We encourage exhibitors to reach out **prior to the show** with any questions regarding steer weights or division placement.

Important Reminder:

975 pounds is the dividing weight between the two steer divisions:

975 lbs. or less → Prospect Steer Show

Over 975 lbs. → Progress Steer Show

Classes in both divisions will be determined and broken by weight.
